Edwards was as bald as the American eagle, says the New York Press. Somewhere on the Charges river he met a band of Indians who laughed him to scorn when he removed his hat. Having winning ways, Edwards soon made himself agreeable, and the chief of the tribe said in the native tongue "We will give you cover for your waked skull." He remained there nearly a year and came back to New York with much better hair than he was born with. Miss Alice M. Smith, of Minneapolis, Minn., tells how woman's monthly suffering may be permanently relieved by Lydia E.Pinkham's Vegetable Compound

"DEAR MRS. PINKHAM: - I have never before given my endorsement for any medicine, but Lydia E. Pinkham's Vegetable Compound has added so much to my life and happiness that I feel like making an exception in this case. For two years every month I would have two days of severe pain, and could find no relief, but one day when visiting a friend I ran across Lydia E. Pinkham's Vegetable Compound, she had used it with the best results and advised me to try it. I found that it worked wonders with me; I now experience no pain, and only had to use a few bottles to bring about this wonderful change. I use it occasionally now when I am exceptionally tired or worn out." - MISS ALICE M. SMITH, 804 Third Ave., South Minneapolis, Minn., Chairman Executive Committee, Minneapolis Study Club. - \$5000 forfeit if original of above

A Relic of Herodotus.

Recent excavations on the site of ancient Naucratis on the delta of the Nile have brought to light, among other things, a possible relic of Herodotus, to whose description of the luxurious Greek settlement we owe most of our knowledge of it. He visited the city in the latter part of the fifth century B. C. The relic in question is the base of a painted vase inscribed "Herodoton.' This vase was found within the Hellenic precinct, and seeing the comparative rarity of the name, and the coincidence of the date of the vase, as judged by its fabric and the lettering of the dedication, with the probable epoch of the Halfcarnassian's visit, it is a plausible guess that this vase had some direct connection with the father of history -Kansas City Journal.

Sewing Bees to Rescue. According to South African Exports there should be an increased demand for soft goods in British East Africa A notice in Nairobi, by John Ains worth, the sub-commissioner, states that natives entering the town must be decently clothed. Missionaries, set tlers, etc., are asked to encourage the wearing of cloth by natives in their employ; while the police and government officials have instructions to warn the blacks that they will not be ellowed in Nairobi unless they are wearing at least an ordinary loincloth. International Lesson Comments For January 31.

Subject: Jesus Calls Pour Disciples, Luke v, I-II-Golden Text, John viii., 31-Memory Verses, 4-6-Commentary on the Day's Lesson.

I. Jesus teaching the people (vs. 1-3).
1. "The people pressed." Leaving Nazareth our Lord went to Capernaum and perhaps abode in the house of Peter. The
power of His preaching drew crowds, power of His preaching drew crowds, which pressed upon Him as He was walking along the white beach which forms the margin of Lake Gennesaret. "To hear." There was a good prospect for a glorious revival of religion. There were times in the life of our Lord when thousands were anxious to hear Him, for the common people heard Him gladly. "Lake of Gennesaret." The most sacred sheet of water which this earth contains. Called also the Sea of Galilee the Sea of Tiberias and in Sea of Galilee, the Sea of Tiberias, and in the Old Testament the Sea of Chinneroth Josh. 12:3). It is a clear, sweet lake about twelve miles long and five broad, with the Jordan River flowing through it. Its fish were valuable. In Christ's time it was covered with a fleet of 4000 vessels, from fishing boats to ships of war. This was the region of the early labors of our from fishing boats to ships of war. This was the region of the early labors of our Lord. Here He performed some of His most wonderful miracles; here He selected His disciples. But at the present time all is desolate around Galilee, and the desolation will increase until the aggressive power of Christ's gengel carries Christianity to er of Christ's gospel carries Christianity to that now benighted land. 2. "Two ships." Fishing boats. They

that now benighted land.

2. "Two ships." Fishing boats. They must have been small. This is clear from the accounts given of them. A few men could handle one, and a single large draught of fishes endangered them. "Standing by." Anchored, or drawn up upon the beach. "Washing their nets." They had spent the pight in fruitless effort and now they were cleaning the filth of the sea from the threads of the nets and mending any delective or broken parts. It is interesting to notice how often Christ appeared to men while they were busy with their temporal affairs, and how their worldly conditions were made the means of giving them to better understanding of Him. 3. "One of the ships." The ship of James and John appeared to be at some distance way. "Prayed Him." Asked Him. Jesus in a familiar manner takes possession of Peter's boat and makes it His rulpit while He speaks to the people. "Sat down." The common posture of Jewish teachers. Compart Matt. 5:1. "Taught." It is probable that this was a small bay on the cove, and that when He was in the boat the people on the shore stood round Him in the form of an amphitheatre. No doubt the lake was still so that His voice was undisturbed. In such a situation He could be easily heard, and no spectacle could be more beautiful than the Son of God speaking to the poor, ignorant and attentive multi-undes assembled on the shore.

II. "The draught of fishes (vs. 4-7). 4. "Launch out." Christ forgot His own weariness and only seemed to remember the disappointment of His followers in toiling all night in vain. This verse has often been used to illustrate the fact that Christ would have us leave the shore of selfishness, worldliness and sin and launch out into the depth of His nets for the taking of fish. 5. "Master." This is the

selfishness, worldliness and sin and launch out into the depth of His nets for the taking of fish. 5. "Master." This is the first time that the word here translated Master is used in the New Testament, and it is used only by Luke. The other evangelists call Him Rabbi or Lord. Note how familiarly Peter addresses Jesus. "Toiled all night." Peter says this to show how unlikely it was that they would catch anything, and it is no doubt reported by Luke to cause the miracle to appear all the more

thing, and it is no doubt reported by Luke to cause the miracle to appear all the more striking. There were certain kinds of fishing always carried on at night. "At Thy word." No doubt Peter was weary and somewhat discouraged, but he had faith crough in Christ to lead him to go at the direction of his divine Master.

6. "Their net brake." "Their nets were breaking."—R. V. There was such a multitude of fishes that a snap in some weak part of the net warned them that they must have assistance or lose the entire 'catch." The miracle was an asted parable, of which the significance is explained in Matthew 13:47. "This breaking net is explained by St. Augustine as the symbol of the church which now is. He compares the unrent net to the church of the future which shall know no schisms." 7. "Beckoned." Made signals. The distance evidently being too great for the voice to dently being too great for the voice to reach. "They came." James and John with their ship. "Began to sink." The boats would hardly hold as much as the nets. Trench refers to a shoal of mackerel, at Brighton, in 1808, so great that the net could not be brought in, and fishes and could not be brought in, and usnes and net remained in the sea together. By this rast draught of fishes Christ intended, 1. To show His dominion in the seas as well as on the dry land (Psa. 8:8). 2. To confirm the doctrine He had just preached. 3. To give those who were to be His am-

access they might expect.

III. The disciples astonished (vs. 8, 9).

"Saw." It seems that it was not till Peter saw the boats beginning to sink that he realized the greatness of the miracle. "Fell down." The common posture of a supplicant. In amazement he fell at the feet of Jesus trembling and afraid. He no feet of Jesus trembing and arraid. He no doubt had a knowledge of many of the miracles which Christ had performed, but none had so directly touched himself as this one. "Depart from Me." Peter saw that the same knowledge and power that could pervade the depths of the sea could pervade the depths of his human heart and know its secret sins. "A sinful man." Peter saw himself a very sinful creature. When we get near Christ we will see that in our unregenerate state we are without moral beauty or holiness. 9. "Was astonished." Was amazed. Humanity stands

ished." Was amazed. Humanity stands "amazed" before the power of God.

IV. Forsaken all for Christ (vs. 10, 11).

10. "Sons of Zebedee." The children and wife of Zebedee are often referred to, but in this transaction only do we meet with Zebedee himself (Matt. 4:21). "Fear not." He calmed their fears and stilled all their troubled feelings. "From henceforth." Hereafter. "Catch men." Literally, thou shalt be catching alive. This seems to imply the contrast between the fish that lay ply the contrast between the fish that lay glittering there in dead heaps and men the should be captured not for death, but

"Ships to land." They drew them up on the beach for a final abandonment. "Forsook all." Although it was not much which they had to leave, yet it was all they had, even all their living. "Followed Him." They returned again to their occupation as fishermen after the crucifixion, and were again called to abandon it and devote themselves by a second miraculous draught of fishes and by the direct precept After Pentecost they never resumed their former secular calling.

All structural lines are largely dependent upon the ability of the railroads to borrow money and the restoration of confidence among investors. Only fair reports are received regarding the leading manufacturing lines. Many iron and steel plants have resumed, but the preceding curtailment was very severe. Textile fabrics are as badly unsettled as ever, lower prices for new lines of woolens proving a disagreeable surprise to the many small operators and speculators in cotton rendering forward contracts for goods an impossibility.
